

# Crisis Continues

June 2020

Sacks of 50 kg (110 pounds) of rice were given to sixty families in Bangladesh.

As reported in last month's newsletter, the ministries we support in many developing nations are suffering due to COVID 19 and major flooding. In Congo the rain has finally stopped and they are in the process of cleaning up, drying out, and making necessary repairs at Congo for Christ. We sent additional emergency assistance to Congo and India in May.

Packing the rice into baskets for the long trek home

Our friends in Bangladesh are also in need of our help. We sent \$3,000 emergency funds in May and will be sending more in June. Pastor \*Samuel sent pictures and reports concerning the extreme hardships they are facing daily. The May funds were enough to provide food for sixty families for a month. These include twenty families of church leaders and pastors and forty families of church members in four villages. Pastor Samuel shared the thanks expressed by these families. In his words:

*"They gave you thanks a lot for your GREAT contributions during this difficult time. They said we never ever didn't think such kind of receiving heavenly blessing for food!!! At the same time they praise the Lord for His miraculously providing food for us. We cannot give anything to them, but we will continually be praying for Global Outreach family."*

Heading home carrying up to 110 pounds of rice for as long as five hours

We are thankful to be a part of God's answer to the prayers of these dear brothers and sisters in Christ. We are also sending funds to provide rice for ninety families in village churches that are further away from Pastor Samuel. He told us these people are having to go into the jungle and dig roots just to eat each day. Many of you have already given generously to meet these crucial needs. Every gift is important during this critical time and greatly appreciated! Thank you for your continued generosity. \*name changed
